About Us…

Shun Shing Packaging Industries Ltd (SSPIL) is a subsidiary of Shun Shing Group that produces Woven Polypropylene (WPP) sacks and Flexible Packaging Materials for own use and other local/MNCs. The company holds almost 15% of the total market share of the cement sacks market.

The company started its initial journey with WPP sack in the year 2002 with state-of-the-art Korean Technology Machinery for producing 28 Million Pcs of 2-Ply PP Sack to meet the demand for Seven-Rings Cement. Within a couple of years, the company expanded its 2-Ply production capacity several times until Y2017 up to 80 million sacks. Considering the demands of **Single Ply AD*STAR and PP Woven Agro Bags**, SSPIL installed a multipurpose poly woven sacks unit in the Y2018. The new factory's BOPP Film Printed BOPP Sacks are unique and widely acceptable to MNCs and local companies.

SSPIL has three separate production units at its Kaligonj, Gazipur, Bangladesh complex with a total production capacity of **170 million** WPP Sacks. The company emerged as the market leader in the WPP Sack business supplying more than 20 companies including MNCs.

In addition to the poly sack business, the company started production of **Flexible Packaging Materials including food packaging, Agro packaging, Pharmaceuticals, toiletries, etc** in Y2024 and is gradually developing to provide quality packaging solutions to customers.

Since 2002, SSPIL has been providing quality packaging solutions around the nation and the globe.

Our Mission, Vision & Values…
